"FILES" OPTION IN KARMA

....

THE LIST OF FILES PATHS TO LOAD

```javascript
function listFiles() {
    var wiredepOptions = _.extend({}, {
        directory: './../bower_components/',
        bowerJson: bowerJson,
        devDependencies: true,
    });

    return wiredep(wiredepOptions).js
        .concat([
            'lib/jasmine-2.3.4/jasmine.js',
            'fixtures/*.js',
            '../js/vendor/logismata/ch.logismata.moneypark
            '../js/angular/insurances/calculations/insuran
            '../js/angular/insurances/calculations/*.js',
            '../js/angular/insurances/utils/logismata-util

            '../js/angular/i18n/angular-locale.js',
            '../js/angular/yellow-submarine/directives/head
            '../js/angular/defaults/directives/format.js',
            '../js/angular/defaults/directives/scroll-to-e
            '../js/angular/defaults/directives/server.side
            '../js/angular/defaults/utils/formUtils.js',
            '../js/angular/defaults/custom-popover.js',
            '../js/angular/defaults/auto-spinner.js',
            '../js/angular/*.js',
            '../js/main-site/support-ie10.js',
            '../js/main-site/message-show.js',

            '../js/angular/online-mortgage/directives/*.js
            '../js/angular/online-mortgage/apps/*.js',
            '../js/angular/online-mortgage/controllers/*.j
            '../js/angular/online-mortgage/services/*.js',
        ], getSpecs(process.env.KARMA_SPECS));
}
```

POSSIBILITY TO RUN SPECIFIC FILE

....

getSpecs() function

```javascript
var _ = require('lodash'),
    wiredep = require('wiredep'),
    bowerJson = require('./../bower.json');

function getSpecs(specList) {
    if (specList) {
        // How to run (example)
        // one file:
        // env KARMA_SPECS="path/file.js" karma
        // all files in directory:
        // env KARMA_SPECS="path/*.js" karma sta
        // several files:
        // env KARMA_SPECS="path/file.js,
        // path-to-file/file.js" karma start
        return specList.split(',');
    } else {
        // default spec when run 'karma start'
        return ['spec/**/*.js'];
    }
}
```
